Undergraduate

ABOUT ME

Motivated Software Engineering undergrad with a passion for tech. Equipped with strong academic background and practical skills in programming. Completed diverse courses to broaden expertise. Eager to contribute to dynamic teams, gain real-world experience, and grow as a professional. Dedicated, adaptable, and collaborative. Valuable asset to any project.

PROJECTS

• The Communication and Stationery Management System | Rathiy Intech - wellawatte [🔗](#) (MERN stack)

Technologies and Tools : MongoDB, Express, React JS, Node JS

As the promotion manager, I managed the promotion and coupon module, allowing for the creation, updating, and deletion of coupons. The system featured comprehensive reporting, filtering, and search capabilities, as well as functionalities for auto-generating coupons during transactions and ensuring smooth discount applications for customers.

• Stock Management System [🔗](#) | semester 3 | 2023

Technologies and Tools : HTML, CSS, JavaScript, Java (JSP servlet), Apache Tomcat, Eclipse IDE

Managed stock management module, designed and coded full-stack functionalities, and pioneered individualized user logins for efficient CRUD operations.

• Online Land Selling System [🔗](#) | semester 2 | 2023

Website link - <https://dspjayalath.000webhostapp.com>

Technologies and Tools : HTML, CSS, JavaScript, PHP

Designed and implemented the home page, land selling functionalities, and user dashboard, leading both frontend and backend development.
